

# List of Packages in the Distribution`

Lists of packages included in the distribution /repository are contained in the distribution / repository itself.

In general, the path to the lists consists of:

Distribution names:

- orel
- smolensk
- leningrad

Component names:

- main
- contrib
- non-free

Architecture names:

- binary-amd64
- binary-i386
- binary-e2k-8c

Packages can be stored in a packaged form (the name of the file Packages.gz) or in an unpacked form (the name of the file Packages).

```
dists/{orel, smolensk, leningrad}/{contrib, main, non-free}/{binary-amd64,binary-i386,binary-e2k-8c}/{Packages.gz, Packages}
```

For example, the path to the list of packages "contrib" in OS ON Orel 2.12 Yandex repositories:

<ftp://mirror.yandex.ru/astra/current/orel/repository/dists/orel/contrib/binary-amd64>

Paths to files with lists:

For OS He Eagle:

```
dists/orel/contrib/binary-amd64/Packages.gz
dists/orel/main/binary-amd64/Packages.gz
dists/orel/non-free/binary-amd64/Packages.gz
For OS CH Smolensk
```

```
dists/smolensk/contrib/binary-amd64/Packages.gz  
dists/smolensk/main/binary-amd64/Packages.gz  
dists/smolensk/non-free/binary-amd64/Packages.gz  
For OS CH Leningrad
```

```
dists/leningrad/contrib/binary-e2k-8c/Packages.gz  
dists/leningrad/main/binary-e2k-8c/Packages.gz  
dists/leningrad/non-free/binary-e2k-8c/Packages.gz
```
